Quassel IRC - Feature #1018

Make TAB completion keyboard shortcut configurable

08/24/2010 09:19 PM - amiconn

Description

It would be especially useful on the Nokia N900 to have the TAB completion key configurable, because the N900 keyboard does not have a TAB key. Xterm for N900 solves that with a TAB softkey on the touchscreen, but that's a quite specialized solution.

Since Quassel already has a whole bunch of configurable keyboard shortcuts, I would expect this to be a fairly simple addition.
