

Quassel IRC - Bug #1038

Changing the quasselclient icon on mac os x does not work

11/22/2010 10:30 AM - public

Status:	New	Start date:	11/22/2010
Priority:	Low	Due date:	
Assignee:	EgS	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Mac OS X
Version:	0.7-pre		
Description			
When changing the icon of quasselclient on Mac OS X by dragging a new icon onto the old icon in the Properties Window of quasselclient.app the old icon still is used when quasselclient is running (in the dock and application switcher). the new icon only gets shown in the dock and applications folder when quasselclient is NOT running. It works fine with every other mac os app i use.
