# Quassel IRC - Bug #298

## Quassel join channels when single-clicking the name in the bufferview

08/28/2008 10:50 AM - adamtulinius

| **Target version:** | 0.3.1 | | |
| **Version:** | 0.13.1 | **OS:** | Any |

**Description**

After parting a channel, a normal click on the channel will make you join again (-- it should be a double-click).

Regression from .. eh.. sometime in the past :-)

Don't join channels on single click in bufferviews on X11, fixes BR #298

**Revision 0a82bb8c - 11/15/2008 09:37 PM - Manuel Nickschas**

Don't join channels on single click in bufferviews on X11, fixes BR #298

### History

**#1 - 11/15/2008 09:39 PM - Sputnick**

AFAIR this was changed from doubleClicked() to activated() a while ago, because doubleClicked() fails on Mac. Apparently, activated() fails on X11 though.

We explicitly require a double click now again on X11, even though the docs for activated() suggest differently...
