Quassel IRC - Bug #983

A selected, highlighted, wrapped line has discoloration issues

06/02/2010 04:53 AM - flamingspinach

Status:	New	**Start date:**	06/02/2010
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Quassel GUI (Qt)	**Estimated time:**	0.00 hour
Target version:			
Version:	0.6-pre	**OS:**	Any

Description

When a line is highlighted, spans multiple rows (by word wrapping), and is selected, line breaks "appear" in the highlight color and not in the selection color. See attached screenshot for an example.

Version is 0.6.1.
