

## Quassel IRC - Bug #1322

### Postgres prepared statement does not exist.

11/03/2014 05:11 AM - Lugoues

<b>Status:</b>	New	<b>Start date:</b>	11/03/2014
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Quassel Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Some future release	<b>OS:</b>	Linux
<b>Version:</b>	0.11-pre		
<b>Description</b>			
Quassel IRC: v0.12-pre (0.11.0+12 git-bd295c0)			
I am getting the following errors from postgresql starting a few days ago. This ends up causing postgresql to shutdown with this message` 2014-11-01 00:19:43 EDT [15132-1] quassel@quassel FATAL: terminating connection due to administrator command`.			
I don't see any errors in the quassel log itself.			
postgres-log			
2014-11-02 22:25:14 EST [22189-1] quassel@quassel ERROR: prepared statement "quassel_select_sende rid" does not exist			
2014-11-02 22:25:14 EST [22189-2] quassel@quassel STATEMENT: EXECUTE quassel_select_senderid ('')			
2014-11-02 22:25:14 EST [22189-3] quassel@quassel ERROR: prepared statement "quassel_insert_messa ge" does not exist			
2014-11-02 22:25:27 EST [22189-5] quassel@quassel ERROR: prepared statement "quassel_select_messa ges" does not exist			
2014-11-02 22:25:27 EST [22189-6] quassel@quassel STATEMENT: EXECUTE quassel_select_messages (203 , 500)			
2014-11-02 22:48:58 EST [25436-1] postgres@quassel ERROR: function get_raw_page(unknown, integer) does not exist at character 31			
2014-11-02 22:48:58 EST [25436-2] postgres@quassel HINT: No function matches the given name and a rgument types. You might need to add explicit type casts.			
2014-11-02 22:48:58 EST [25436-3] postgres@quassel STATEMENT: SELECT * FROM heap_page_items(get_r aw_page('pg_prepared_statements', 1));			
2014-11-02 22:54:34 EST [22189-7] quassel@quassel ERROR: prepared statement "quassel_insert_sende r" does not exist			

## History

### #1 - 06/12/2022 12:59 PM - jjakob

This is normal and can be safely ignored.

<https://github.com/quassel/quassel/blob/4251006ea8f4433e1c139d380cd6c748b0dfcc84/src/core/postgresqlstorage.cpp#L2169>

```
// Query preparing is done lazily. That means that instead of always checking if the query is already prep  
ared  
// we just EXECUTE and catch the error
```

### #2 - 06/12/2022 01:14 PM - jjakob

Your log also contains an unrelated error that was not caused by quassel

```
2014-11-02 22:48:58 EST [25436-1] postgres@quassel ERROR: function get_raw_page(unknown, integer) does not ex  
ist at character 31  
2014-11-02 22:48:58 EST [25436-2] postgres@quassel HINT: No function matches the given name and argument type  
s. You might need to add explicit type casts.  
2014-11-02 22:48:58 EST [25436-3] postgres@quassel STATEMENT: SELECT * FROM heap_page_items(get_raw_page('pg_  
prepared_statements', 1));
```

The connecting user is postgres, not quassel, so it may have been caused by something else on your system. It is also unrelated to the "prepared statement does not exist" error that this bug is titled from.
