Quassel IRC - Feature #642

Wizard Autojoin dialog should accept white space

03/28/2009 03:20 PM - daskreech

Status:	New	**Start date:**	03/28/2009

Target version:			
OS:	Any		

Description

When you are doing the new user wizard sign up the widget that configures auto-join is a free writing text box. Currently it differentiates channels based upon a new line when really it should be parsing for white space. If a user puts the channels in one line they should still get them all on first join.
