

Quassel IRC - Feature #1418

OTR Support

08/09/2016 07:00 PM - rikai

Status:	New	Start date:	08/09/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Core	Estimated time:	0.00 hour
Target version:	Some future release		
OS:	Any		

Description

The [old issue on this functionality](#) was incorrectly closed in favor of the [Blowfish Support](#) feature request.

OTR and Blowfish are separate things and the distinction is fairly well documented in [this article](#).

Now, that explanation aside, there has been recent interest in the IRC channel in seeing OTR support as it has advantages over blowfish when used in the context of 1:1 conversations (documented at the [OTR site](#)), and is fairly well supported and used via third-party extensions to other clients, so i decided to open a new feature request.

As stated in the original request, [libotr](#) remains an updated, portable, GPL library that can be used for implementing this functionality. Ideally, this would be an option available as an addition to the existing blowfish encryption support, rather than an a replacment, for maximum flexibility.
