

Quassel IRC - Bug #1523

Some joined channels are not shown until the client is restarted.

04/09/2019 03:20 PM - Hofaetho

Status:	New	Start date:	04/09/2019
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.13.0		
Description			
Quassel client version 0.13.1 -- not 0.13.0.			
Often, when joining a channel using the dialog box from the # button, the channel is joined on the IRC server but not shown in the client. No errors are shown. After restarting the client, the joined channels are seen.			
For example, joining #Quassel, the channel was not shown, but joining #Quassel.de it was.			
No correlation has been established between channel attributes and this error.			
No such error was observed in a previous version. This has been tested and reproduced on 2 IRC networks.
