

Quassel IRC - Bug #272

Double-clicking whitespace in column 2 of chat monitor causes segfault

Description

This is only an issue with long lines that the chat monitor buffer word-wraps.
In the example given below, double-clicking the location indicated by [] (or anywhere in that area) would generate a segfault:

```
<Network:#channel:nick> Lorem ipsum dolor sit amet, consectetur adipiscing  
elit. Cras accumsan pulvinar leo. Sed ac eros. Curabitur  
[] odio sapien, mollis sed, convallis id, porta tincidunt,  
eros. Nulla est risus, varius nec, tempor sit amet,  
vestibulum eget, ante.
```
