

## Quassel IRC - Feature #418

### Custom color palettes for different usage patterns

#### Description

When trying to switch from using oxygen to something darker, I noticed a large amount of manual color switching to get things looking right... Perhaps a set of customizable palettes or even 2-3 predefined palettes that look good on different styled (light/mid/dark) backgrounds would be a good feature request. This is something that bothers me on every IRC client I use. It's not exactly a theming issue, but more tweaking the theme for a few styles and having it remembered for the future.

#### History

##### #1 - 12/23/2013 08:55 PM - Anonymous

- Status changed from New to Closed
- Priority changed from High to Normal
- OS set to Any

See [Stylesheet Gallery](#); if someone creates a nice and popular one, it could be added to quassel (like jussi's dark theme).
