

Quassel IRC - Bug #731

quasselcore will not start up when file permissions wrong

07/02/2009 05:35 PM - pennywise

Status:	Closed	Start date:	07/02/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Linux
Version:	0.4.2		
Description If the sqllite-db exists (in .config/quassel-irc.org/ e.g.), but is not owned by the user runnig quasselcore, the core will not start up and "hang" after the following log-message Info: Restoring previous core state...
