

Quassel IRC - Bug #1001

Users do not show up when I have "/oper" in connect commands

06/26/2010 02:12 PM - Dakon

Status:	Feedback	Start date:	06/26/2010
Priority:	Normal	Due date:

Target version:		OS:	Linux
Version:	0.6.1		

Description

I connect to our private network running ngircd (available at <http://ngircd.barton.de>). I connected to some channels, than put "/oper me pass" in connect commands. When I now disconnect from network and reconnect I only see the operators (including me) in the channels. New users also show up. But the users in that channels are not visible in the nick list (I see them talking).

This is similar to [#918](#) but I do not use a bouncer but directly connect to the network. If I connect without that oper command I see all users (and operators) in the nick list as expected.

Version is 0.6.1 (not selectable in version combobox).

History

#1 - 06/26/2010 02:31 PM - Dakon

If I connect without that oper command I see all users (and operators) in the nick list as expected.

If I leave a channel and join again I'm shown as normal user, but not operator.

- Status changed from New to Feedback

- Version changed from 0.6-pre to 0.6.1

Please get newest stable version (0.7.1) and give feedback if problem still exists.

#3 - 03/22/2011 07:33 AM - Dakon

Yes, problem is still there.

#4 - 03/22/2011 07:33 AM - Dakon

Yes, problem is still there.

#5 - 03/22/2011 07:34 AM - Dakon

Looks like your server screams "internal error" and is accepting the answers anyway. Sorry for the dupe.
