

Quassel IRC - Bug #1063

n900 hildon style: UI stylesheet bugs (when custom colors are enabled)

03/12/2011 12:13 AM - sgiessl

Status:	Resolved	Start date:	03/12/2011
Priority:	Normal	Due date:	
Assignee:	sgiessl	% Done:	0%
Category:	Quassel2Go	Estimated time:	0.00 hour
Target version:	0.8.0	OS:	Any
Version:	0.7-pre		
Description			
Steps to reproduce: - Settings dialog: Enable custom colors			
Effect: - the maemo application menu has unusally large space between the items - the chat text input line has wrong colors: black text on black background			

History

This bug is related to stylesheets and is most likely a bug in qt, because exactly the same happens for any qt app which happens to be using qt-stylesheets.

i.e. the bug happens even here:
qmlviewer -stylesheet /dev/null

<http://www.forums.internetteblettalk.com/showthread.php?p=878901> claims that this is a bug in Qt 4.7 (since n900 firmware version pr1.3)

#2 - 04/02/2011 04:06 PM - sgiessl

- Status changed from New to Resolved

worked around the bug by avoiding qt stylesheets by default and allowing custom stylesheets to modify the input line background color explicitly.
