

Quassel IRC - Bug #1191

U+200B "ZERO WIDTH SPACE" characters causing client crashes

10/14/2012 01:53 AM - rikai

Status:	Closed	Start date:	10/14/2012
Priority:	Urgent	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.8.0		
Description			
U+200B "ZERO WIDTH SPACE" characters will cause a client crash on mouseover. As a side effect, also breaks URL detection for any URLs including the characters.			
This sample will cause client crash on mouseover: testtest This one should break url detection AND cause client crash on mouseover: http://google.com/–			

History

#1 - 10/14/2012 12:13 PM - Anonymous

Can't reproduce the crash here. Could be a windows only Qt issue.

There's a separate ticket for the url breakage ([#1092](#)), which in this case might even be desired (major browsers reject such urls for being misleading)

#2 - 04/17/2013 08:49 PM - Anonymous

- Status changed from New to Closed

- Version changed from 0.8-pre to 0.8.0

Qt issue, reportedly solved in 4.8.4 (used for the 0.9.0 Windows builds).
