

## Quassel IRC - Bug #1266

### Status information (user count, lag, etc) for status buffers does not update automatically

03/15/2014 12:33 AM - mamarley

<b>Description</b>			
Status buffers display certain information about the network (network name, server name, user count, lag) in the topic bar. However, this information is not automatically updated and is only refreshed if the user chooses a different buffer and then switches back to the status buffer.
