<b>Description</b>			
<p>After the last update of Quassel Client (I'm using v.0.12.2 (dist-9c5e6c6), now), I've lost my default shortcut settings. This is especially annoying, as it is not possible to restore at least one of the default mappings by custom mappings: The dialog does not accept the Tab key as a mapping parameter, which renders the "tab completion" feature virtually.</p>
