Windows 10 issue, missing libqca-qt5.dll | V12.2

08/16/2015 02:22 PM - arjo

Status:	New	Start date:	08/16/2015
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Windows
Version:	0.10.0		
Description			
The normal windows installer is able to install, but after connecting to a network it crashes.			
the Unencrypted windows installer installs just fine, but the program is then missing the libqva-qt5.dll			
installer versions are: V12.2 and V12.2-1

Not just Windows 10, but Windows 8.1 as well.

I found that the unencrypted version is missing both libqca-qt5.dll and libgcc_s_dw2-1.dll. When I copy them over from the encrypted version, the program still won't start do to an invalid entry point error in libqca-qt5.dll.
