Quassel IRC - Bug #1426

Failure to connect on startup

01/14/2017 04:10 PM - ChrisLane

Status:	New		Start date:	01/14/2017
Priority:	Normal		**Due date:**

Category:	Quassel Client		**Estimated time:**	0.00 hour
Target version:				
Version:	0.12.4		**OS:**	Linux

Description

Client System: Arch Linux 4.8.13-1-ARCH
Quassel Client: Version: v0.12.4 (dist-90183ee) Protocol version: 10

When I start my computer, I am setup to automatically connect to a VPN and for Quassel to open and connect to my Quassel Core that's on another machine.

It would seem that the client attempts to connect to the core possibly without a properly working internet connection and gets stuck at this stage: https://i.imgur.com/z3tCwF7.png
If I close the program and re-open it, the client connects to the core as expected.
