

Quassel IRC - Feature #1470

Beep on message in particular channels

01/20/2018 09:10 PM - gry

Status: New	Start date: 01/21/2018

Target version:	
OS: Any	
Description	
<p>Some people like to "right click on chan and select 'beep on message'". This means they can hide a channel from the list, but when someone sends a message there, they get notified.</p> <p>Perhaps this could be implemented by adding a current chat highlight on *. This already can be done in Quassel settings by hand today. But having it in the context menu could be a nice shortcut.</p>
