

## Quassel IRC - Bug #1494

### "Configure" should not be the first menu entry in network context menu

#### Description

Version is 0.13-rc1 (both this and 0.12.5 are missing in the version list of the bugtracker).

Having this as the first entry in the context menu makes clicking on it and connecting to a network a bit fragile, as I'm used to go on the first entry to connect. I think that configuration will not happen that often so adding it as last entry would make sense.
