

Quassel IRC - Feature #1510

would it be possible to lower boost version requirement?

01/23/2019 05:31 PM - rkitover

Status:	Resolved	Start date:	01/23/2019
Priority:	Normal	Due date:

Target version:	Some future release		
OS:	Any		
Description			
OpenSUSE Leap 42.3 only has Boost 1.54.0, and the requirement is for 1.56.			
Is 1.56 absolutely required, or could the required version be lowered for older distributions?			

Associated revisions

Revision 3f71a843 - 05/31/2019 07:32 PM - rkitover

cmake: Lower Boost dep version 1.56 -> 1.54

Require Boost 1.54 instead of 1.56.

Tested to compile and work correctly on OpenSUSE Leap 42.3.

Fixes #1510.
