

Quassel IRC - Bug #1527

sign the bundle by a Registered Apple Developer

06/26/2019 08:03 AM - public

Status:	New	Start date:	06/26/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.13.0		
Description			
<p>I guided someone installing quassel irc on a mac, the mac didn't let quassel run and asked some special permissions to mark it as trusted. Something like 'shift plus right click, click run' or some toher obscure thing we needed to read the help page about before it even started the installer.</p> <p>I have shared this issue with #quassel today and awilfox said that to resolve this issue the Quassel IRC app in Mac Store should be signed by a registered apple developer..</p>
