

Quassel IRC - Bug #1587

Changing an existing identity SSL key and certificate hangs on "Syncing data with core, please wait..."

07/20/2020 01:54 PM - jjakob

Status:	Feedback	Start date:	07/20/2020

Target version:		OS:	Any
Version:	0.13.0		
Description			
<p>I had an existing identity with SSL key and certificate set. I tried to change the key and certificate, clicked Apply and it hung on "Sync With Core". I have to click on Abort, and the key and cert aren't changed.</p> <p>The workaround is to first clear both key and cert, click Apply, then load the new key and cert and click Apply. Then the certs are loaded without a hang.</p> <p>OS: Ubuntu 16.04 LTS quassel: 0.13.1-2ubuntu0~ppa0~16.04.0</p>

I am unable to reproduce this issue on Fedora 34, running Quassel compiled from git.

Could you please verify that you're still seeing this issue?
