Quassel IRC - Bug #1606

Alias loses first character

09/17/2020 10:06 AM - Dries

Status:	New		**Start date:**	09/17/2020
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	Some future release			
Version:	0.13.0		**OS:**	Any

Description
When trying out an alias that automatically shows a block of text the first character gets removed or the / gets shown

History

#1 - 09/19/2020 05:10 AM - genius3000

- Subject changed from Alias looses first character to Alias loses first character

Can you show an example? Preferably a few screenshots showing the alias setting and trying to use it.
What client version and core version are you using?

I am using the OSX Monolithic Client.
It is about the "color nicnkames in other messages"

That's a seperate topic than this. I've replied to that topic as well. These screenshots have nothing to do with this topic though.

- File deleted (Schermafbeelding 2020-09-19 om 10.16.48.png)

#7 - 09/27/2020 05:46 AM - genius3000

- File deleted (Schermafbeelding 2020-09-19 om 10.19.06.png)

#8 - 09/27/2020 06:01 AM - genius3000

- Priority changed from Normal to Low

- Target version set to Some future release

Thanks for the example screenshots. I have confirmed this behavior with Quassel Client 0.13.1 on Ubuntu 16.04 and Quassel Core 0.13.1.
As a current work-around you can use "/say " in your alias' expansion.
