Quassel IRC - Feature #303

Add /unban and /banlist

08/29/2008 02:53 PM - sph

Status:	Assigned		**Start date:**	
Priority:	High		**Due date:**

Category:	Quassel Client		**Estimated time:**	0.00 hour
Target version:				
OS:	Any			

Description

These aliases seem to work for me:
/unban => /mode $channelname -b $1
/banlist => /mode $channelname +b

However, /banlist shows the output in the status window, it would be nice if it was shown in the current window instead.

fixing BR #303 partially - introducing unban

History

#1 - 10/31/2008 02:17 PM - EgS

Unban has now been implemented. It's not an aliases so it can make use of the same logic the regular ban has.

Regarding banlist: I don't like this: we have a nice gui and should make use of it. Something like the channel search list comes to mind.
