Quassel IRC - Bug #347

Option to display private messages and queries in current buffer is not honored

10/12/2008 09:54 AM - hagabaka

Status:	Resolved	**Start date:**		
Priority:	Normal	**Due date:**		
Assignee:	EgS	**% Done:**	100%	
Category:	Quassel Client	**Estimated time:**	0.00 hour	
Target version:	0.4.0			
Version:	0.3.1+	**OS:**	Any	

Description

I have checked these configuration options in Behavior - General:

```
Display User-related messages and private notices:
  [x] in status buffer
  [x] in query buffer (if exists)
  [x] in current buffer
```

However, Quassel displays private messages and notices only in query buffers, not in the status or current buffer. Also, even if I uncheck "in query buffer (if exists)", Quassel still displays them in query buffers, and opening new query buffers when they don't exist.

I restarted Quassel after changing these options.

Additional information:

Quassel version v0.3.0 (dist-2f0cc0c, 2008-08-27)
Built: Sep 9 2008 14:09:23

I installed Quassel using the quassel package for Ubuntu in hardy-backports; the package version is 0.3.0-0ubuntu4~hardy1.

History

#1 - 10/31/2008 04:37 PM - EgS

since the introduction of the messagemodel/messagefilter concept redirection of messages doesn't work anymore.

This functionality needs to be reimplemented in the messagefilters.

#2 - 12/28/2008 01:51 AM - Sputnick

- Priority changed from High to Normal

#3 - 01/13/2009 08:29 PM - EgS

- Status changed from New to Resolved

- Assignee set to EgS

- Target version set to 0.4.0

- % Done changed from 0 to 100

- Version set to 0.3.1+

Those Settings have been reworked quite a while ago and are working again since then:
