| Description | | | |
| <p>That is when you switch to an "away nick", you are automatically set away with the appropriate message. Changing to a non-"away nick" should unset away status. Different away nicks may have different messages (TerrorBite sleep -> away: "Asleep in bed", TerrorBite eating -> away: "Gone for Food" etc).</p> <p>This feature should be activated by use of the nickname drop-down list, and may be activated by using /nick.</p> | | | |
