

Quassel IRC - Bug #43

Handle /query Command

06/19/2007 09:57 PM - EgS

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	EgS	<b>% Done:</b>	0%
<b>Category:</b>	Quassel Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.2.0-alpha1		
<b>Version:</b>	0.13.1	<b>OS:</b>	Any
<b>Description</b>			
Currently one is unable to start a Query. There is a raw version of Server::handleUserQuery() but there is still work to be done.

History

#1 - 06/19/2007 10:05 PM - EgS

As soon as Sput has finished BR [#41](#) I'll implement the handling of user queries.

If there is objection to my suggestion regarding BR [#37](#) I'm going to treat /msg and /query commands according to my last Note.

#2 - 01/22/2008 02:40 PM - Sputnik

We should at least make /query an alias for /msg before the release; the fact that it does not do anything yet tends to confuse people :)

And btw, [#41](#) has been closed long ago ;)

#3 - 02/05/2008 01:25 PM - EgS

/query now opens always a buffer and stores you're message.

/msg just sends the message to the target without storing it or opening a buffer.
