

Quassel IRC - Bug #549

Chat monitor not grabable after it's reenabled

02/12/2009 07:37 AM - kitterma

Status: Resolved	Start date: 02/12/2009
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	OS: Any
Version: 0.3.0.x	
Description After I re-enabled the chat monitor, I couldn't grab it to adjust its size and the border looked too narrow. Stopping and restarting the client got me to a normal situation.

- Status changed from *New* to *Confirmed*

Qt bug - nothing much we can do about that, I'm afraid :(Dock widget handling is kinda flaky in Qt...

#2 - 02/12/2009 10:50 AM - Sputnik

On the upside, this does seem to be fixed in Qt 4.5 - at least I can no longer confirm it on my 4.5 box.

#3 - 03/03/2010 07:07 PM - johu

- Status changed from *Confirmed* to *Resolved*

- Version changed from *0.3.1+* to *0.3.0.x*

fixed with >=qt 4.5, which is already minimum version for quassel
