

Quassel IRC - Feature #598

HTTP proxy selection on Windows for the webkit preview

03/07/2009 05:29 AM - Lingerance

Status:	New	Start date:	03/07/2009
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
OS:	Any		
Description			
As it stands there isn't any way to make quassel use a proxy for the webkit previews of links.			

History

plz, don't implement it with your own proxy handling, just use system settings

http_proxy on linux
Internetsettings of IE on Windows
... something on MacOS :)

Since QT 4.5, this can be done with <http://doc.trolltech.com/4.5/qnetworkproxyfactory.html#systemProxyForQuery>
