Quassel IRC - Feature #644

Change the colour of lines of text in the chat monitor if they originated from the currently selected channel

03/29/2009 12:40 AM - tktn

Status:	New	**Start date:**	03/29/2009

Target version:			
OS:	Any		

Description

I use the chat monitor to quickly look at what is going on in other channels.

Making lines of text from the current channel in the chat monitor distinguished from lines of text from other channels will make "looking at what is going on in other channels" much easier.

i think #515 is more appropriate for making 'monitor other channels' easier. adding this feature in addition would be overkill.
