

Quassel IRC - Bug #659

Panels permanently increase size on every drop

04/03/2009 11:44 PM - pano

Status:	Rejected	Start date:	04/03/2009
Priority:	Normal	Due date:

Version:	0.4.0		
Description			
hello,			
If you drag the topics panel and drop it again, the size of it will be permanently increased: you won't be able to resize it to a smaller size.			
This "effect" can also be triggered by disabling and enabling it from the "View" menu.			
Here using Qt 4.5, but I also remember encountering this with Qt 4.4.3			
thank you!

- Status changed from New to Rejected

This is probably obsolete. Sounds like a theme engine bug anyway.
