Target version:				
OS:	Any			

Description

Quassel should implement some way to add cookies to the Preview Browser.

It could be a command in the settings, or just a folder in the config folder where you can save/generate a cookie, similar to how it's done with wget or something.

History

#1 - 10/14/2009 03:06 PM - Creap

#827 was incorrectly filed as a bug, and description was unclear. Creating this instead.
