

## Quassel IRC - Feature #836

### Forward highlights to external script / URL

10/22/2009 01:22 PM - fuzzy76

<b>Status:</b>	New	<b>Start date:</b>	10/22/2009
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Quassel Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>OS:</b>	Any		
<b>Description</b>			
I think an extremely nice feature would be to have highlight rules stored in the core, and have highlights forwarded to an external script or URL (RESTful webservice). That would make it possible to use <a href="http://prowl.weks.net/">http://prowl.weks.net/</a> for getting instant mobile notifications of triggers, even when the client is disconnected from the core.

Is this still relevant for anyone ?

I can add support of it in <https://github.com/phhusson/QuasselBots/>
