

Quassel IRC - Bug #941

Wrong mouse cursor shown in certain chatscenes

03/18/2010 06:00 PM - al

Status:	New	Start date:	03/18/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.5.0		

Description

When moving the mouse cursor over certain chatscenes, instead of the default cursor the QSplitterHandle cursor shape is drawn. This always seems to be triggered by a single chatline containing a clickable. When hovering this one line the correct cursor appears.

History

#1 - 08/26/2010 05:37 PM - johu

- Target version changed from 0.7.0 to 0.7.1

#2 - 09/21/2010 06:58 PM - johu

- Target version changed from 0.7.1 to 0.7.2

#3 - 03/24/2011 04:13 PM - johu

- Target version deleted (0.7.2)
