

Quassel IRC - Bug #983

A selected, highlighted, wrapped line has discoloration issues

06/02/2010 04:53 AM - flamingspinach

Status:	New	Start date:	06/02/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.6-pre		
Description			
<p>When a line is highlighted, spans multiple rows (by word wrapping), and is selected, line breaks "appear" in the highlight color and not in the selection color. See attached screenshot for an example.</p> <p>Version is 0.6.1.</p>
